

## Senior Metering Engineer

Location: Onshore Aberdeen, opportunity for hybrid working

Salary: Competitive

Date Posted: Wednesday 16 September

Closing Date: Wednesday 7 October

### The Role

As Senior Metering Engineer, you will provide technical leadership for metering across Serica's operated assets, while supporting assurance activities for non-operated assets. This is a pivotal role that helps safeguard measurement accuracy, regulatory compliance and the integrity of our production reporting, ensuring our assets continue to operate safely and efficiently.

Acting as a recognised subject matter expert, you will be the focal point for fiscal, allocation and process metering, helping to resolve complex measurement challenges and providing trusted guidance to operational, maintenance and project teams. Strong **Communication** will be essential as you collaborate with a wide range of internal and external stakeholders.

You will lead assurance activities including metering audits, vendor oversight and risk management, ensuring compliance with regulatory requirements and industry standards. Through your technical authority and attention to detail, you will help maintain confidence in our measurement systems and processes.

The role also offers the opportunity to drive continuous improvement. From developing maintenance strategies and addressing equipment obsolescence to identifying opportunities that enhance efficiency and production performance, you will play an important part in supporting the long-term success of our assets. A commitment to **Learning** and continuous improvement will be key.

Working within a values-led culture, you will be trusted to make informed decisions, manage risk effectively and deliver high-quality outcomes. We value **Empowerment & Accountability**, encouraging individuals to take ownership while always demonstrating **Respect** for colleagues, partners and the environments in which we operate.

### What we are looking for in potential candidates:

We are looking for an experienced metering professional who combines strong technical expertise with sound judgement, stakeholder influence and a commitment to safe and compliant operations.

### Leadership & Responsibilities

- Provide technical leadership and assurance across fiscal, allocation and process metering activities.
- Act as the key point of contact for metering audits, regulatory compliance and third-party assurance providers.
- Lead the investigation and resolution of measurement issues, balancing operational, commercial and compliance requirements.
- Influence operational, maintenance and project teams through expert advice and collaborative working.
- Drive reliability, performance improvement and risk reduction initiatives across metering systems.

- Support engineering studies, asset modifications and management of change activities, ensuring adherence to recognised standards and best practice.

### **Experience & Qualifications**

- Degree qualified in an engineering discipline, or equivalent industry experience.
- Significant experience in metering, measurement systems and field instrumentation within the energy sector.
- Strong knowledge of relevant metering regulations, industry codes and technical standards.
- Experience managing third-party vendors, contractors and technical service providers.
- Commercial awareness, including budget management and cost control responsibilities.
- Demonstrated ability to analyse complex problems, manage risk and deliver practical engineering solutions.

### **Our Culture**

Serica offers the opportunity to be part of a busy, vibrant working environment with a strong culture rooted in mutual respect and trust.

We are passionate about building an inclusive culture that attracts and encourages diversity. We want our employees to feel that they can bring their true self to work, as we recognise the potential that this unlocks and the value that it brings.

We have created an environment that puts people at the heart of everything we do, based on a shared set of values. This means not just doing the essentials of looking after everyone's health, safety and wellbeing but their development, their sense of belonging and their success. Only by making our values a real part of everyday life at Serica can we achieve our goals and grow as individuals and together.

In real terms this means being truly supportive of the things that matter to our people.

### **What can a career at Serica Energy offer you?**

We offer the opportunity to be supported with further training if required and access to competitive benefits such as

- Company Pension
- Private Medical & Dental Insurance
- Health Cash Plan
- Share Save and Share Incentive Plan
- Life Assurance
- Group Income Protection
- Personal Accident Insurance and Business Travel.
- Employee Assistance Programme
- Cycle to Work
- Electric Vehicle Scheme

We also offer the opportunity to work flexibly.
